YOUR VOICE MATTERS

PROBLEM STATEMENT

Oppression by Capitalist

People's POV

No Privacy

cylabspainblog

SOLUTIONS

VOICE OUT

- Allowed to voice out without others tracking you
- Show your opinion on the latest politics new or any general news without any trouble

NO LOGIN REQUIRED

- No login required
- Required Metamask wallet or any other connectivity wallet.
- To show progress in shares or donations and subscriptions through Cryptocurrencies or Cash

DECENTRALISE WEB3

- By using web3 platforms like Solana allows data bias to only own users.
- Used to ensure a truly free, fair, and open internet.
- Decentralized network makes it more difficult for malicious attacks to control the network, and hence, less vulnerable

PRIVACY

- Lets users to post whatever news relevant to their experience without leaking who post it
- OnlyNews uses untraceable tor VPN and some IP blocking network

COMPETITIVE ANALYSIS

Competitors & Features	OnlyNews	BBC NEWS	The New York Times	Aljazeera	REUTERS
Uses Web 3.0					
Have untraceable IP feature					
Allow users to voice out without their data being tracked					
High end decentralised security					
Quick Transaction pace up to 2600 times					
Worldwide					

POTENTIAL USERS

**Total Number of Social Media Users
Worldwide Over a 2-Year Period**

WHY SOLANA?

- **Speed & Low Fees**

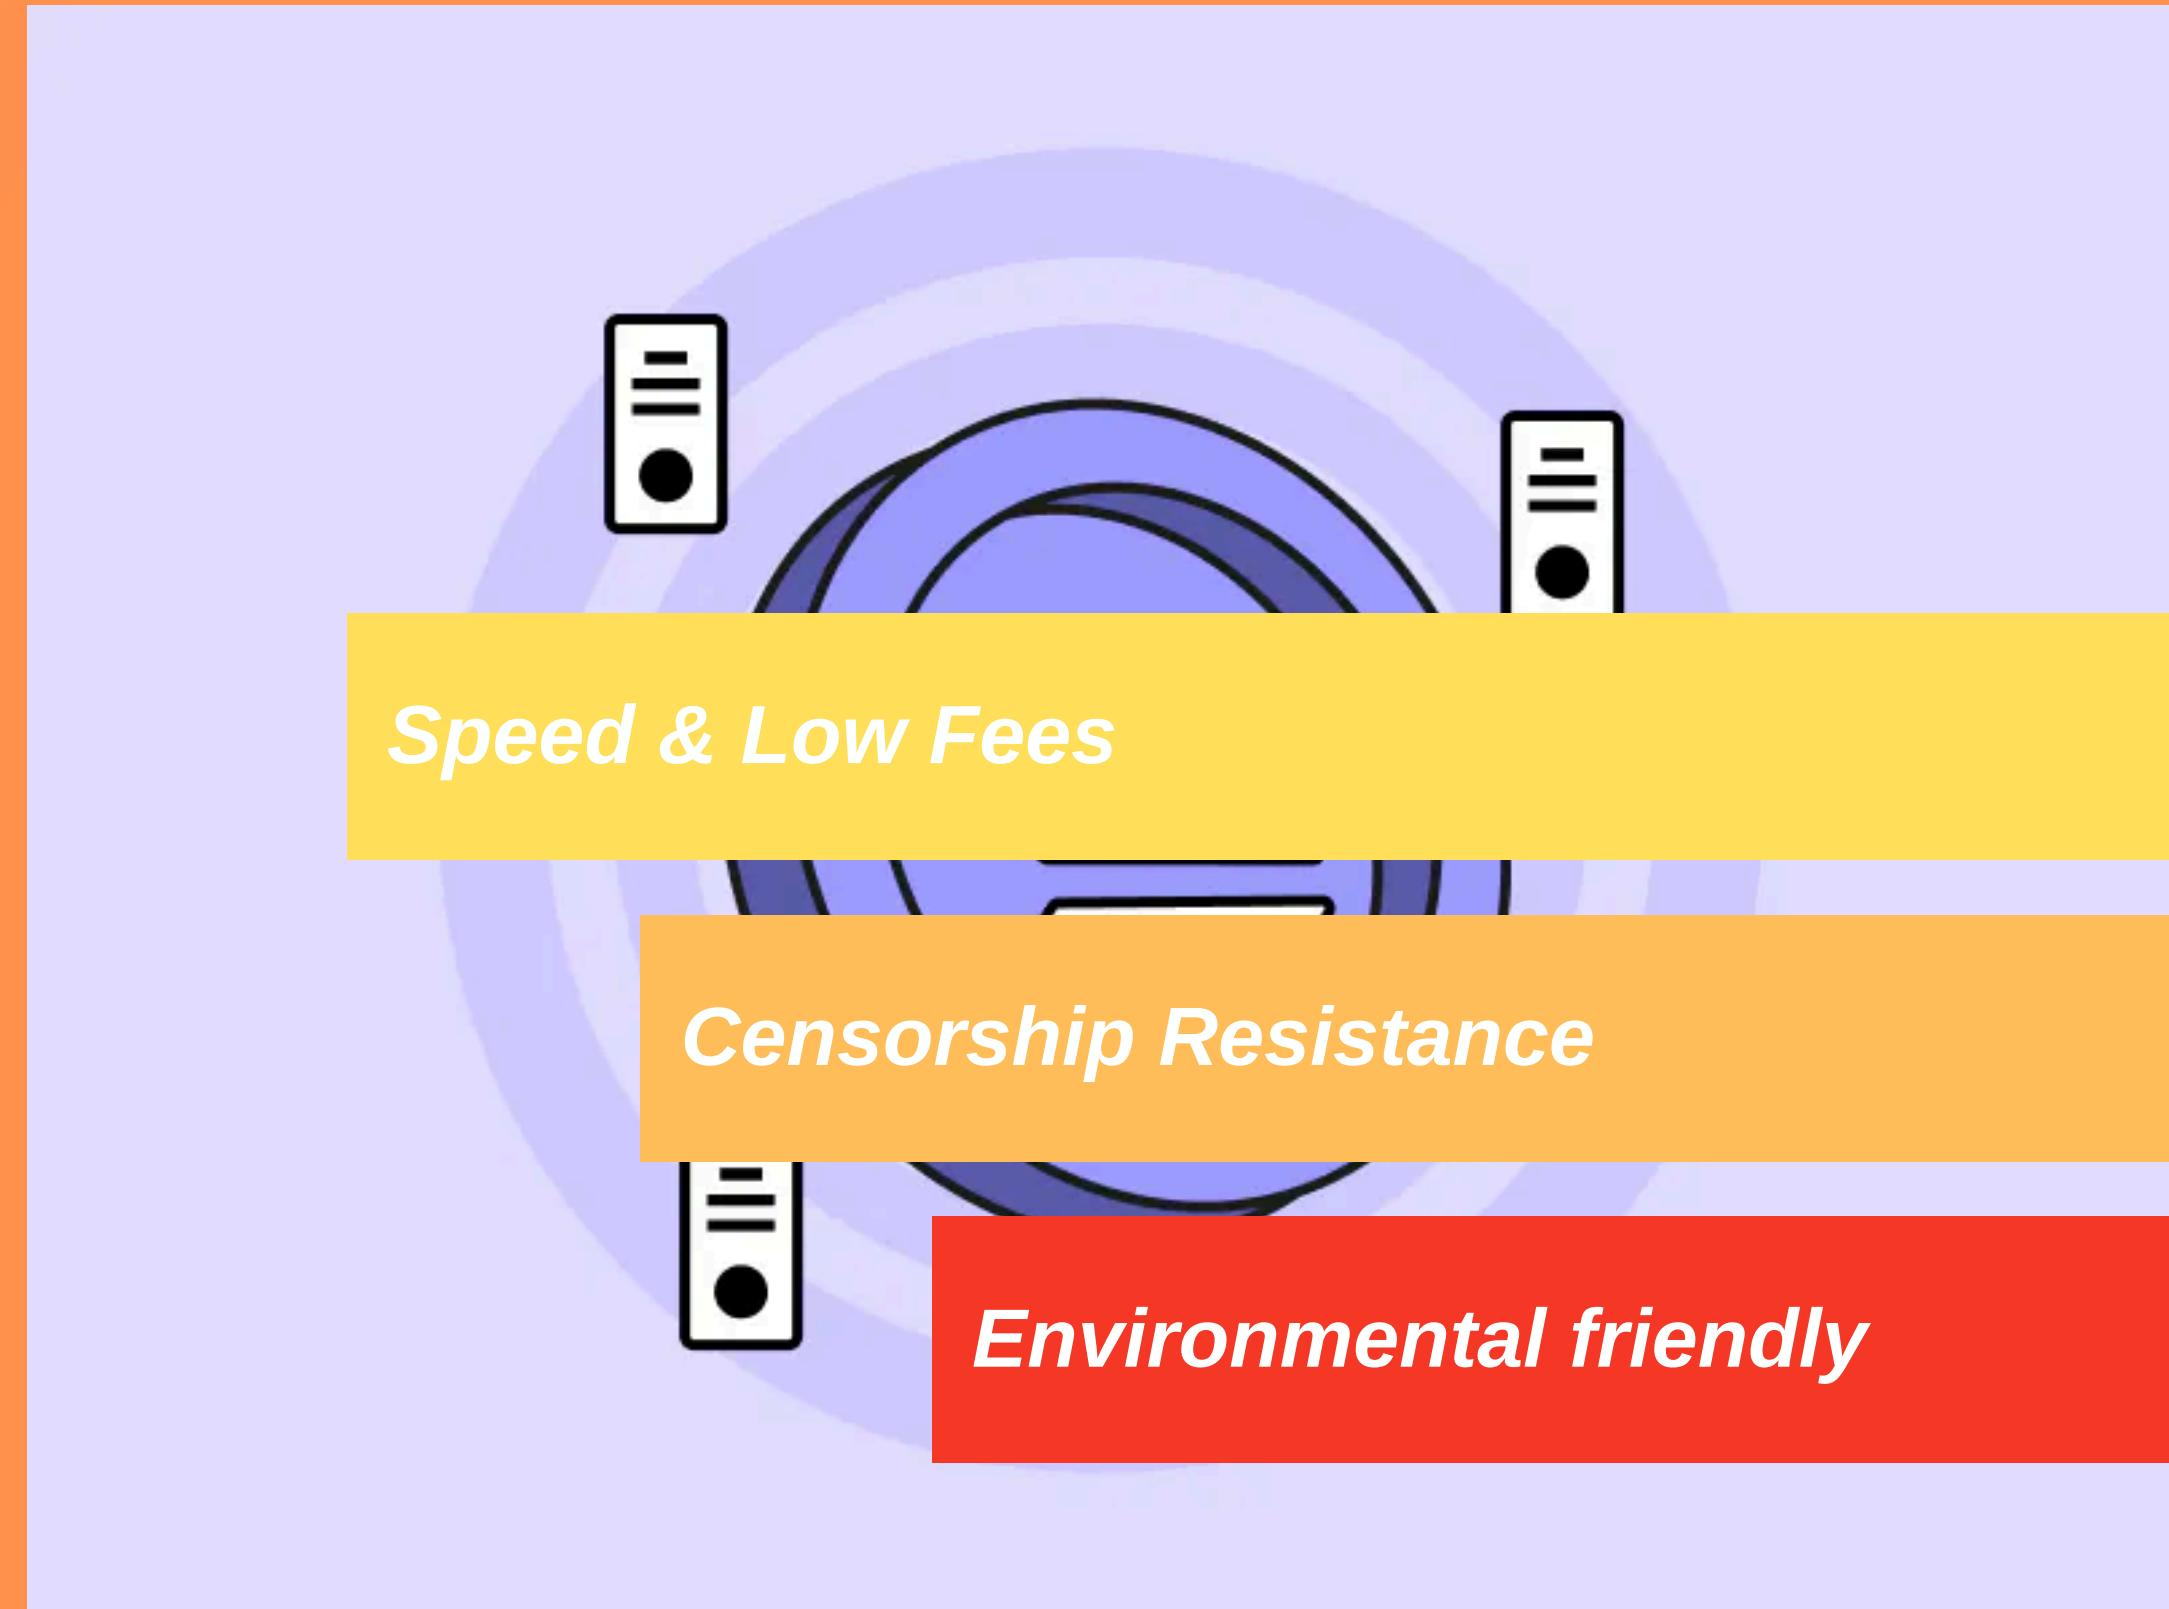

Your data is safe and resistant to censorship since the Solana network is verified by thousands of nodes that run separately from one another.

- **Censorship Resistance**

Its decentralized network ensures data and transactions are resistant to suppression or manipulation by governments or centralized authorities.

- **Environment friendly**

Solana has a smart-contract layer 1, has real-time emission tracking down to RPC level.
